

## **Specialist in Periodontics and Implant Dentistry**

**Dr Constantine Ong** BDS (Brist), MFDS RCS (Eng), MClintDent (Lond), MRD RCS (Eng)

GDC No: 74316

Constantine is a Specialist Periodontist. He qualified from Bristol University in 1998 and won numerous prizes for his research project carried out at University of California, San Francisco. After several years practicing general dentistry, he undertook and completed his specialist training in Periodontics and Implant Dentistry at the well-renowned Eastman Dental Institute, University College London with Distinction. Constantine has been specialising in Periodontics and Implant Dentistry for more than ten years. Alongside his specialist practice, he also teaches at the UCL Eastman Dental Institute. He has published in peer-reviewed journals and lectured nationally and internationally. Currently, Constantine is a specialty examiner for the Royal College of Surgeons of Edinburgh.

Constantine can offer the following treatment solutions and services:

### **Implant dentistry:**

- Placement of implants for referring dentist to restore.
- Placement and restoration of implants.
- Mentoring dentists placing implants.
- Sinus augmentation.
- Hard tissue augmentation- block bone grafts or guided bone regeneration.
- Soft tissue augmentation.
- Treatment of peri-implantitis

### **Periodontics:**

- Full case examination and treatment planning.
- Non-surgical therapy.
- Pocket reduction surgery.
- Periodontal regenerative therapies- treatment of intrabony defects
- Periodontal plastic surgery- soft tissue grafting of recession
- Aesthetic or functional gingival surgery (e.g. frenectomy or gingivectomy) to improve contour.
- Crown lengthening- functional or aesthetic surgery prior to "Smile Makeover".

### **Orthodontics:**

- Exposure or/and bracketing of an impacted tooth.

Constantine has a special interest in cosmetic gum surgery in improving smile and aesthetic implant dentistry. Constantine is committed to excellence in periodontal care and implant dentistry based on the best evidence and the latest advances.

Constantine's philosophy is to work in partnership with the referring dentist in order to provide the best dental care for the patients. As part of this partnership, he would provide the followings:

- A comprehensive report provided following the patient's consultation.
- Only the prescribed referral request would be addressed.
- Working closely with the referring dentist to ensure continual dental care for the patient.
- All patients referred are returned to their dentist and hygienist.

We encourage communication from referring dentists, please feel free to contact Constantine either by phone or e-mail and he will be happy to provide advice or any further information you might require.
